Austrian Drama

This dramatic Austrian curtain was designed for the Plum Campus of Pittsburgh East Community Church.

The luxurious draping of the Austrian style, sewn in our facility by our skilled seamstresses, is accentuated by the IFR Silver Strie Satin II fabric by Dazian.

The rigging, driven by a Hercules 9007-TV curtain machine, is comprised of a 13-line pulley system. Due to site conditions, the location of the Hercules machine presented a unique design challenge. Our team at Pittsburgh Stage worked closely with our customer to find an inventive, quality solution that did not impair functionality.

An extremely satisfied customer provided with a quality product was the end result of the ingenuity and dedication of Pittsburgh Stage Inc.

See What Our Customers
are Saying....

"Our partnership with Pittsburgh Stage provided the ultimate finish to our Children and Youth Theater where hundreds of children and their parents are positively impacted every week. The project planning and installation of the Austrian curtain was done in a timely and professional manner. The installation team's attention to detail and the craftsmanship of the curtain were exactly what we hoped for. We definitely experienced first hand the excellence for which Pittsburgh Stage is known. "
